Reviews

Stories of Zminotvortsyi

[Watch video with reviews →](#)

Illia, 17 y.o.

Severnyivka village, Kyiv region

In less than a year, he has completed six courses. "During this time, I analyzed dropshipping tools for business, created my own art project, and learned a great deal about military affairs from Hlib Stryzhko, who has become my moral authority." Currently, he is working on a media project and considering applying to Mohyla Academy to pursue a career in military jurisprudence.

Sofiia, 17 years

Lanivtsi, Ternopil region

While in 11th grade, she completed several courses at Zminotvortsyi, which she is now combining with her university studies. She has always been interested in biology and anatomy, which led her to pursue medical school in Ternopil. "These courses gave us a foundation, helping us understand the most important areas. With that base, we could then focus on what we were truly passionate about and plan our future steps in adulthood."

Ksenia, 17 y.o.

Symoniv village, Rivne region

"I actually wanted to skip school when you came to visit us, but now I'm glad I didn't," says Ksenia, who has completed all 12 courses of the Zminotvortsyi program. "For example, I now understand that it's not the right answer that matters most, but rather my own opinion—and that people are willing to listen to it. You also helped me decide to pursue a career as a pharmacist. I enjoy interacting with people and helping them, and this field will continue to grow, unaffected by the rise of artificial intelligence."

Pavlo, 17 y.o.

Velyki Sorochyntsi village, Poltava region

He joined the Zminotvortsyi program in November 2023 and attended the Relationships course, where he realized his calling was to communicate with and help people. "I felt that this was a very responsible job, so I decided to take the course two more times to gain a fresh perspective on the issues discussed," says Pavlo. This year, he enrolled in the Psychology major.

Reviews of teachers

Anna Borodina
teacher of the course
“Relationships”

The new generation of children is different from my teenage years. I am very grateful to Zminotvortsi for this space for children and the opportunity to be involved in teaching the course.

Oleksandr Batalov
teacher of the course “National Secure”

These teenagers have a very high level of awareness and curiosity, an adult sense of self and self-importance. They really understand what they want.

Oleksandr Tkachynskyi
curator of the course “Society”

I would really like for every teenager to have the opportunity to take the “Society” course live in their community.

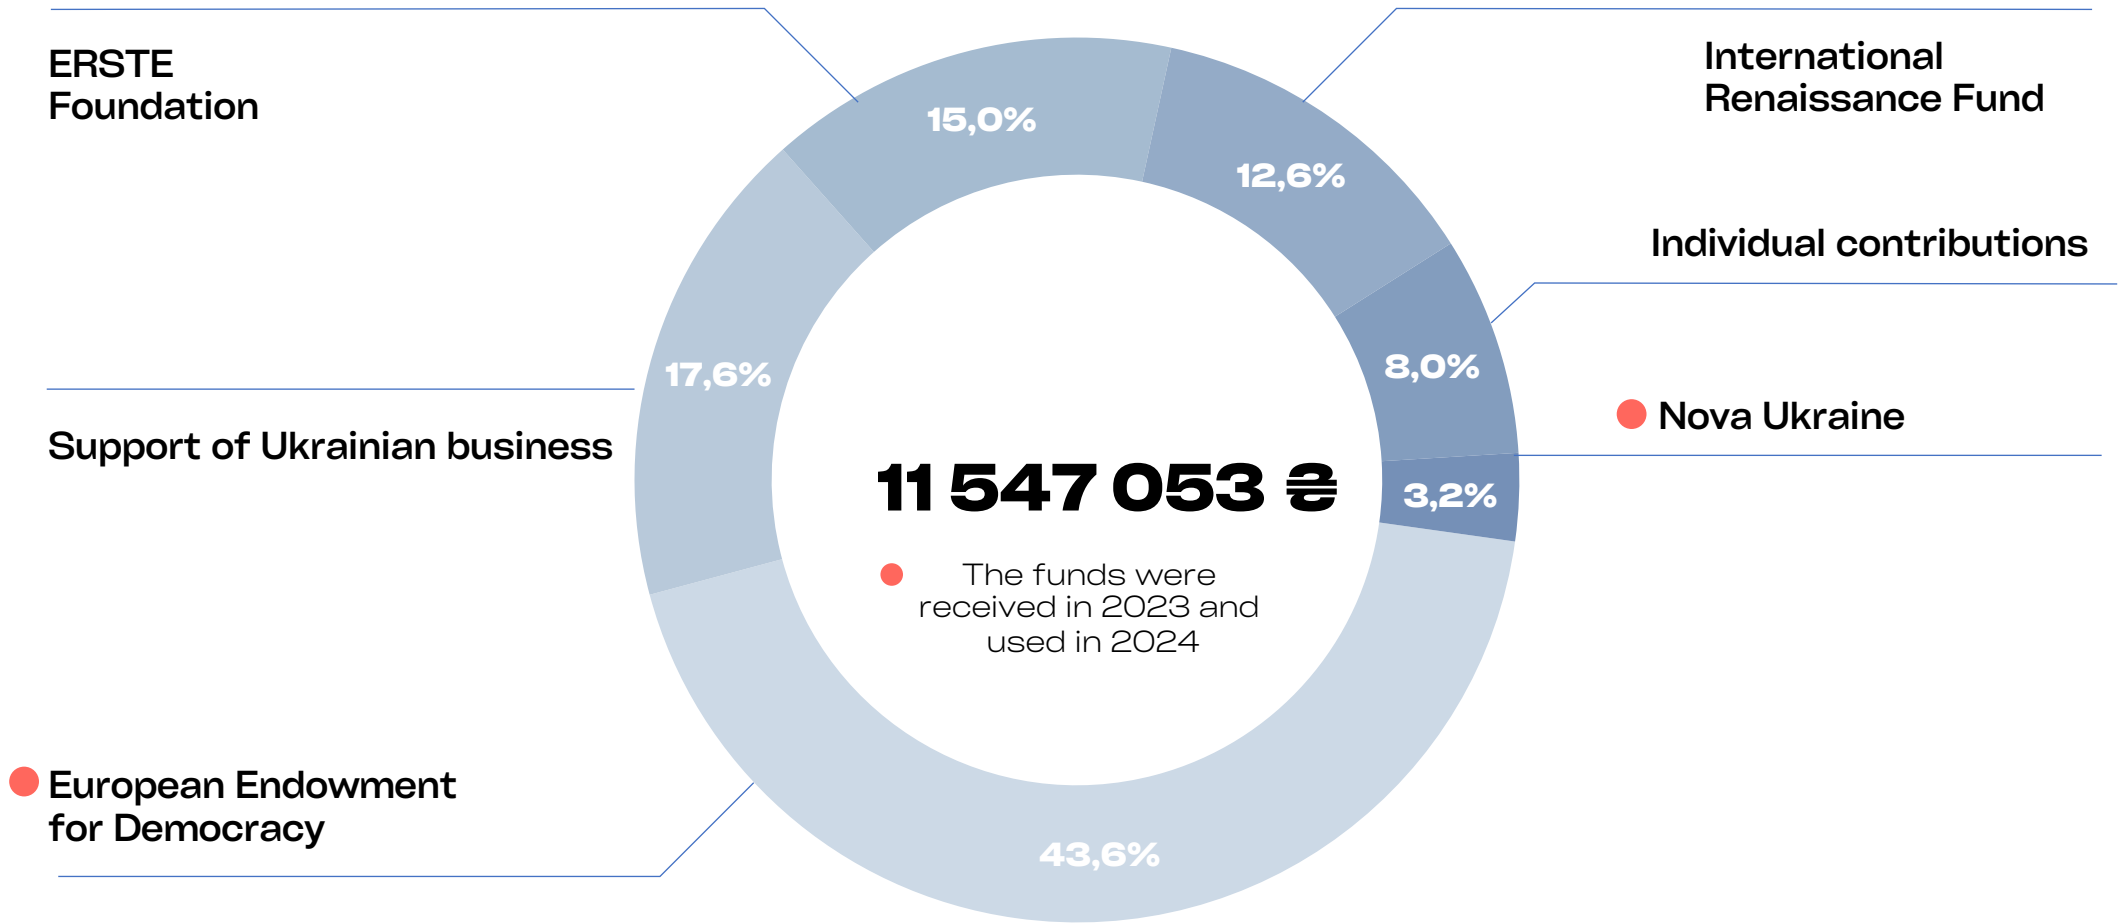

Anastasia Beliaeva
teacher of the course “Culture”

It is not always necessary to simplify complex topics. Teenagers are willing and able to deal with them.
